Lisbon School Annex Cost Termed Too High

LISBON — The \$137,000 estimated cost of a proposed six-room addition to Lincoln School was considered too high by Lisbon School Board members at their meeting Wednesday night in the high school. The board decided to meet April 2 with Frost and Frost, Youngstown architects, who drafted the plans for the annex, and the City-

Disability Issue Splits Congress

Compromise May Be Needed to Get Action

WASHINGTON — The Eisenhower administration may have to compromise with House Speaker Rayburn (D-Tex) if it expects to get congressional action on the presidential disability issue. Although bipartisan support has developed in the Senate for a proposed constitutional amendment which President Eisenhower and Atty. Gen. Rogers endorsed Wednesday, Senate Democratic Leader Lyndon B. Johnson of Texas displayed no enthusiasm for scheduling action on it. Johnson is reported to have told colleagues he prefers to wait until the House acts. Rayburn not only says a constitutional amendment is not needed, but disagrees with Eisenhower's ideas on other phases of the problem. Eisenhower and Rogers agreed that if the President became incapacitated, Vice President Nixon could step in to carry on the presidential duties without taking any new oath or becoming more than

Hayes To Head Scout Safety Campaign

Aubrey Hayes, superintendent of utilities, has been named director of Columbiana County's Northern district safety mobilization plan. All explorer posts and boy scout troops in the northern half of Columbiana county are being organized to carry out the 1958 safety good turn campaign. Bicycle safety courses will be given to local cub scout packs. Films and certificates are available to cub scout packs to aid them in conducting their courses. Wednesday all scout units in the northern district will begin work on their safety good turn awards. Units completing all required projects will receive neckerchief slides for each boy in the units who participated in the required projects. Northern District executive Leonard McDaniel reports great interest in the district regarding the safety good turn theme.

U.S. Jet Shot Down by Reds

OSAN, Korea (AP) — Communist batteries shot down an American Sabre Jet near the Korean truce line today and the pilot reportedly parachuted just over the Communist side of the line. The North Koreans at the time were releasing 2 American pilots and 24 passengers from a South Korean airliner hijacked 18 days ago. The first brief Air Force announcement on the jet fighter did not say whether the pilot who bailed out was seen to hit the ground safely. A second F86 accompanying the downed Sabre returned to its

Kohler Moves Arouse Demands

Inquiry Into Hiring Of Detectives Asked

WASHINGTON (AP)—Sen. McNamara (D-Mich) today demanded vigorous inquiry as to whether it was legal for the Kohler Co. to hire detectives to check on striking union pickets. Lyman C. Conger, chief attorney for the Wisconsin plumbing fixtures firm, testified the company hired private detectives "to get information about violence."

"Selling on union gatherings is a violation of the Taft-Hartley (labor relations) Act," McNamara said. The Michigan Senator's statement to newsmen came as the Senate Rackets Committee prepared to explore the beating of a Kohler nonstriker by William Vinson, an official of the United Auto Workers. Vinson was convicted of the assault and sent to prison.

Chief counsel Robert F. Kennedy said witnesses would include Vinson, an international representative of the UAW from Detroit, and Willard Van Ouwkerk of Sheboygan Falls, Wis., whose injuries included a broken neck. A committee investigator, Jerome Alderman, testified police records show 838 complaints of vandalism since the strike started April 5, 1954. He said they included 259 reports of actual vandalism against nonstrikers and 30 against strikers. The committee is trying to determine who was responsible.

Conger testified that private detectives hired by the company used hidden microphones and secret agents around union picket lines to get information on strike violence. He also acknowledged—and defended—use of the private detectives to dig up evidence which led to a midnight raid in which the Milwaukee police morals squad arrested Robert Burkart, a top union strike strategist and the woman he had represented as Mrs. Burkart.

West to Seek Meeting of UN 'Arms' Group

WASHINGTON (AP) — The United States has informally advised the Soviet Union that the Western powers intend to ask for a meeting of the United Nations Disarmament Commission this month.

The move is designed to test the Soviet Union's declared intention of boycotting the commission. If the Soviets refuse to cooperate, the Western powers then will take the issue of disarmament negotiations into the United Nations Security Council.

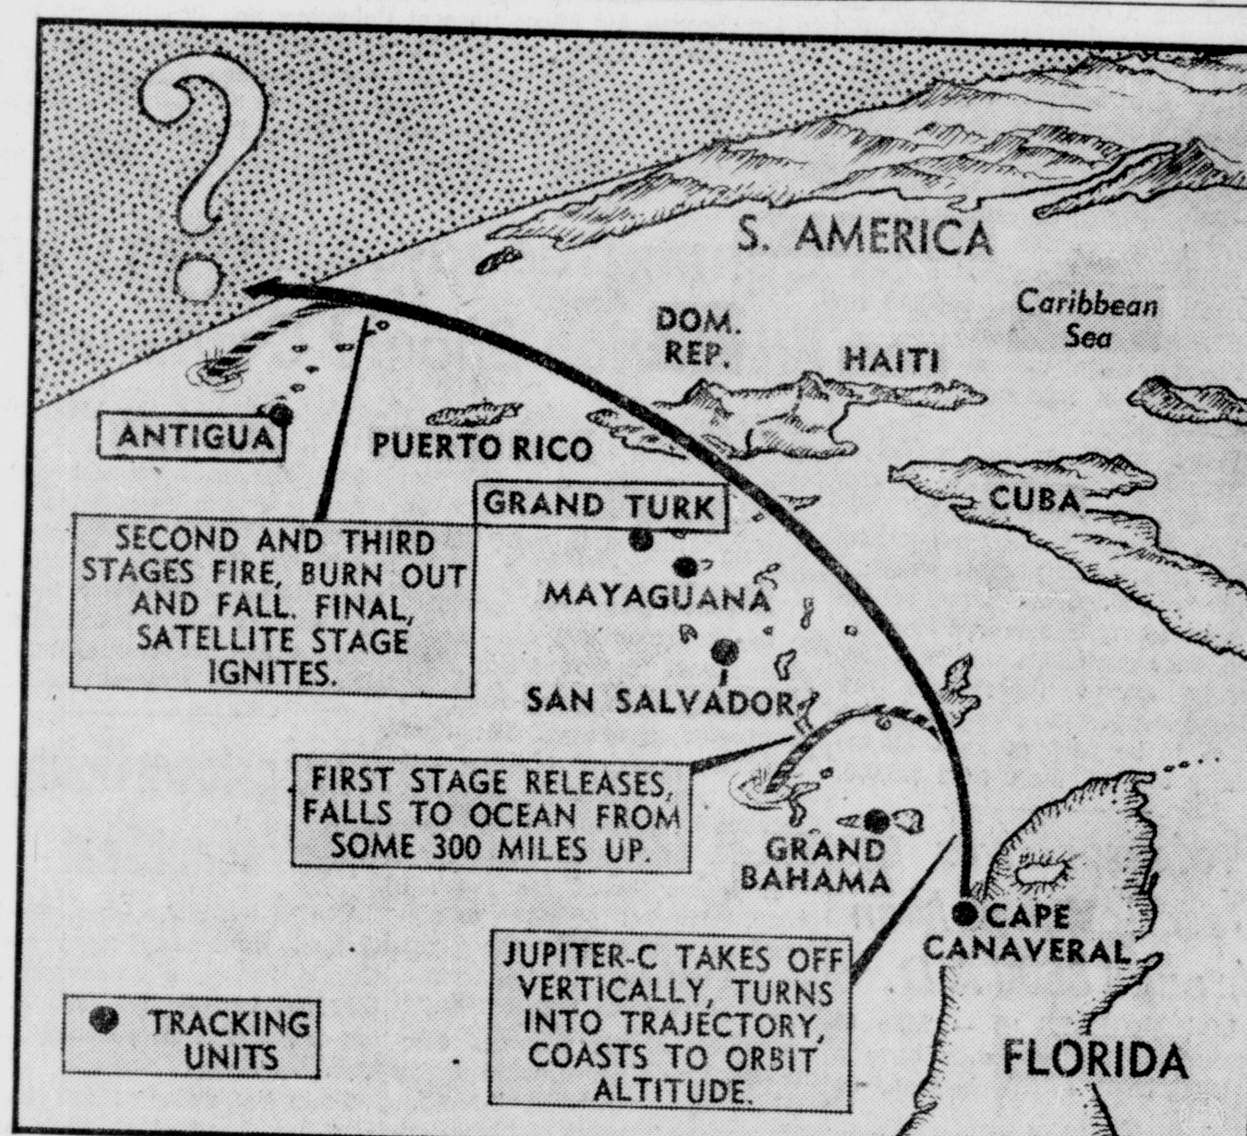

The plan was developed in consultation with NATO allies. It was put in final form in Paris last week.

The Western governments decided that the whole operation should be handled in a friendly manner so the Soviets would have evidence that the Western powers were not simply trying to embarrass them.

The 25-member U.N. Disarmament Commission was created by the General Assembly late last year after the final breakdown of disarmament talks in a U.N. subcommittee made up of the Soviet Union, the United States, Britain, France and Canada. The Soviets wanted a committee composed of the whole United Nations membership of 82 nations. They opposed the 25-member commission from the first.

Council Accepts Village Addition

Leetonia Street Head, Police Get Wage Hikes

LEETONIA — Wage increases for the police chief, patrolman and street commissioner were approved when Village Council met Wednesday evening. Councilmen passed an ordinance

increasing the wages of the following city employees, effective March 15: Police Chief Henry Gibson, from \$325 to \$345; Patrolman Allen Gibson, \$290 to \$335; and Street Commissioner Richard Klein-knecht, \$290 to \$310.

Wages of the other village employees are: regular Board of Public Affairs employees, \$1.50 per hour, extra labor \$1.30 per hour; extra police, \$1.35 per hour; street, \$1.30 per hour; firemen and cemetery sexton, \$1.25 per hour.

An ordinance was passed accepting the plat of Dominic Dattilo of Dattilo's addition on W. Main St., and confirmed the dedication of the street for public use.

Mayor Ralph B. Kennedy who presided at the meeting, reported a total of \$1,275.20 was received during February in fines and fees.

Clerk M. P. Burick presented his reports, which included receipts of \$1,345 from the county health distribution surplus fund, and \$692 for sales tax during January and February.

Due to the hazardous conditions of many of the secondary streets in the village, Council voted to purchase 25 loads of limestone to be used to improve the streets.

Francis Morrissey of the Board of Public Affairs presented a list of residences which are not connected to available sanitary sewers. The residents will be notified to make the connections immediately.

Civic Committee To Meet, Elect Officers

Officers will be elected and a panel discussion on juvenile delinquency held when the Salem Civic Committee meets at 7:30 tonight at the Memorial Building.

"The Juvenile Problem in Salem" will be the topic to be discussed by a panel consisting of Police Chief George Easley, Juvenile Officer C. V. Csepke, School Attendance Officer Deane Phillips and others.

Atty. W. J. Hunston, president of the Civic Committee, urges all organizations to have their representatives at tonight's meeting. The general public is also invited.

Farm State Senators Seek 1-Package Bill

WASHINGTON (AP) — Farm state senators met today in an effort to hammer out a stopgap one-package farm bill running against policies of Secretary of Agriculture Benson.

"If members of this committee stick together we can do it," Chairman Ellender (D-La.) of the Senate Agriculture Committee said in advance of the closed-door session.

The underlying idea of the new Senate drive is to freeze government farm price supports and acreage controls at not less than the levels of last year.

"It would freeze things until congress has a chance to act on new permanent legislation," Ellender said in an interview. "It would cover all basic commodities, including dairy products."

Some weeks ago Benson announced he would lower price supports on milk and dairy products to the legal minimum effective April 1. He already has announced a 22-cent slash in support levels for this year's wheat to an average of \$1.78 a bushel.

Both these reductions would be halted if the Senate proposal became law.

Teams Prepare To Make Search For Satellite

Conviction Grows Army's Explorer 2nd Never Attained Orbit

CAPE CANAVERAL, Fla. (AP) — Moonwatch teams geared themselves today for a sky search for the Army's newly launched and mysteriously missing satellite Explorer II.

At the same time the conviction grew that the six-inch metal cylinder, 80 inches long and weighing about 32 pounds, never achieved an orbit.

There were persistent reports that signals from the Jupiter-C launching rocket convinced some Army missile experts, within the first hour after Wednesday's firing at 1:28 p.m., that the final stage of the four-stage vehicle had failed to fire.

Officials of the Army Ballistic Missile Agency and of the Jet Propulsion Laboratory, which built the high speed upper stages, were unavailable for comment. Werner von Braun, German-born head of the Army space program, left for Huntsville, Ala., before reporters could question him about the launching.

Experts said that failure of the final stage to fire on cue would have meant that the satellite, even though it was at orbital altitude of 200 or more miles, would achieve a velocity of only about three miles a second as against the five miles a second needed to maintain an orbit — 10,800 miles an hour instead of 18,000.

This in turn could mean that the satellite would tumble into the South Atlantic, or into Africa or the Indian Ocean beyond.

William Saxbe To Ask Delay Of SUB Pay

COLUMBUS, Ohio (AP) — Atty. Gen. William Saxbe's office said today he would request a stay of execution on payment of supplemental unemployment benefits (SUB) at the request of the O'Neill administration.

Aides said Saxbe recommended asking an order to block SUB payments during an appeal from a Mahoning County Common Pleas Court decision holding that they could be made. They emphasized that Saxbe took no position against an appeal.

The attorney general expressed belief that SUB payments now would help unemployed workers in position to receive them. If such payments were delayed pending final court determination of the question several months from now Saxbe felt many workers no longer might need them.

Saxbe said that even if higher courts overruled the trial court, SUB payments made during the litigation period would not cost the state anything.

The trial court held yesterday that SUB payments could be made to eligible workers without reducing state jobless benefits they received.

The decision went against an order by James R. Ticer, administrator of the Ohio Bureau of Unemployment Compensation that SUB payments must be reduced from unemployment benefits paid by the state.

Retains Controversial President

Bakery Union Reports It Has 'Cleaned House'

CINCINNATI (AP)—The scandal-torn Bakery Workers Union says it has cleaned house in a special congress here after handing a modest vote of confidence to its most controversial figure—President James G. Cross.

The union delegates shut down the convention Wednesday after delegates directed officers to "seek ways" to comply with rulings by the AFL-CIO—which kicked out the Bakers several months ago on charges of corrupt leadership centering mainly on Cross.

But the convention attached a proviso saying that any peace agreement with the AFL-CIO must be in accord with the Bakery Workers Union constitution.

Cross was unopposed when re-elected Tuesday—although a number of delegates made a silent protest by not voting.

Demanding Special Convention

The AFL-CIO had demanded that the union hold this special convention to elect officers and said Cross must be barred as a

candidate. But the union held it had no power to ban a member from office.

The resolutions Wednesday, in part, diluted some of Cross' power. They include:

Reducing officers terms from five to four years and holding conventions every four years instead of every five. The next congress is set for Washington, D. C., in 1962, at a date still to be chosen.

Giving Executive Board approval to filling vacancies in international offices.

Fixing the salaries of international officers in convention rather than by the International Executive Board.

Trusteeship Panel Named

Naming a disinterested panel to study trusteeship of local unions.

Approval by the Executive Board of hiring and firing by the union president that he has done alone heretofore.

Publishing salaries of international and local officers for members.

Relieving the president of jurisdiction over financial reports by the secretary-treasurer.

A semi-annual instead of annual accounting of international union disbursements.

Cross, who has been accused of dominating the Executive Board, backed all the resolutions.

The convention also fixed executive salaries at present levels: Cross at \$30,000 yearly and \$22,500 for secretary-treasurer Peter Olson. Vice presidents will get \$1,000 yearly except those who are also international representatives, these to be paid at least \$10,000 yearly but not more than \$15,000.

Committee Says Study on Ohio Education Should Continue

COLUMBUS, Ohio (AP)—Gov. C. William O'Neill's Commission on Education Beyond the High School is urging establishment of an interim commission to carry on its work.

The commission was appointed by the governor last March and will make its final report in April.

The sixth open letter from the commission chairman, Dr. John C. Baker, president of Ohio University, and executive secretary Clarence E. Ficken, dean at Ohio Wesleyan University, states:

"It is our belief that such a group, composed of seven to nine members appointed by the governor and approved by the Senate, should serve from 1959 to 1964."

Members of the proposed commission would serve without pay and should be persons "familiar with various aspects of higher education—privately financed institutions, municipal universities, state universities, and public schools concerned with developments in post high school education," the educators say.

The present commission was appointed March 11, 1957, to study the problems of higher education relating both to the present and the future and to prepare recommendations which would help meet these problems.

The commission, however, reported that it has discovered that no recommendation, idea, or proposed set of law can meet the continuing problems facing post-high school education in the state. A formal organization is needed to solve the anticipated as well as the unanticipated problems in the years to come, the letter says.

"The function of such an organization should be to collect data, to advise and to guide, not to dominate. For new two-year colleges, if established, technical institutes and similar developments, the role of a new commission should be defined by the Legislature," the educators report.

The letter lists seven possible duties for the proposed group. They include:

1. Collection of adequate and comparable statistical data of all kinds.
2. Assemble, analyze and disseminate information relative to the status, needs and development of all education beyond the high school.
3. Supervise the testing and administering of the proposed state scholarship programs.
4. To articulate and integrate the various levels of public school education beyond the high school in anticipation of the forthcoming period of increasing enrollments.
5. Administer legislation relating to local and regional programs for

Committee Says Law Facilities Inadequate in Ohio

COLUMBUS, Ohio (AP)—Facilities of local law enforcement agencies and juvenile courts are woefully inadequate to deal with the mounting tide of delinquency, a state crime committee report contends.

The Ohio Committee on Delinquency and Crime—an organization of prominent Ohioans—said in a report released Wednesday that no Ohio county has an ideal treatment program for juvenile offenders.

Most counties are so badly understaffed there is "no possibility" of effective treatment for children, the report said.

The committee reported that 95 per cent of the state's counties do not have even a minimum number of probation officers. Only 19 of Ohio's 88 counties have separate detention facilities, considered a must by juvenile authorities.

The committee found that many counties were detaining children in jails, in some instances for as long as a week, before granting them a hearing in Juvenile Court.

At least one-fourth of county probation officers are inadequately trained and all are underpaid, the committee said.

Cincinnati Youth, 17, Admits Part in Thefts

CINCINNATI (AP)—Police say a 17-year-old Cincinnati youth has admitted he helped a distant cousin stage a series of robberies in the Greater Cincinnati area.

The cousin, Eugene Leo Partin, 27, of Batavia, was captured Tuesday after a holdup here and was charged under federal law with bank robbery. The youth, accused of violating the Federal Juvenile Delinquency Act, was held Wednesday in \$25,000 bond after surrendering to police.

Youngstown Council Fills Vacant Seat

YOUNGSTOWN, Ohio (AP)—City Council Wednesday night elected Gerald Hayes, a steelworker, to the seat vacated by John J. Tobin Jr., who is in Mahoning County jail.

Tobin is under \$75,000 bond awaiting grand jury action on an embezzlement charge.

Hayes, 49, has been a member of the Sixth Ward Democratic Executive Committee for 12 years.

Tobin, elected to the council from the Sixth Ward last November, disappeared Jan. 4, a few days before he was to take his seat. He resigned Feb. 25, the day after he was returned here, and pleaded guilty to embezzlement from the American Associated Insurance Co., which he served as an adjuster.

He was captured in Houston, Tex., Feb. 21.

Police say Tobin headed a ring which reportedly got \$250,000 from the insurance company on false claims.

Paycheck Pappy

By HAL BOYLE

NEW YORK (AP)—The boss is the boss again. The downturn in jobs has made this forgotten figurehead of business a person of importance once more.

It always happens that way. When there are more jobs than people, nobody pays much attention to the boss. He tiptoes around the place talking to himself—for fear that if he says something out loud he'll hurt somebody's feelings, and the guy'll quit and go to work for a competitor.

But when there are more people than jobs—such as right now—the boss again becomes industry's "father image." The problem of the wise worker then becomes one of how to please his paycheck pappy.

So it is time to revive again a forgotten American art—the art of apple polishing.

Your older hired hands, who've survived bad times before, know how to do this instinctively, just as an old boxer never quite forgets his footwork or how to protect himself in the clinches. It's the young employees, who've never known a recession, who are likely through pure ignorance to get gored by a rampant boss now.

So here are a few tips on how to butter up a boss:

1. First, find out who the boss is. If there is a fellow in your office who used to sneak out to play golf at 2 p. m. but now goes around picking paper clips off the floor to cut down expenses, look no farther.

2. Keep your feet off your desk while he is in view. If he speaks to you, rise to your feet and address him as "sir," a polite term used in ancient times to one's superiors. It is not necessary, however, to salute him—not unless times get really bad.

3. Maintain a serious mien at all times except if the boss tells a joke. In this case laugh first and longest—but don't overdo it. It isn't wise to let the boss know how scared you really are.

4. Never interrupt his old joke to tell a new one of your own. The boss no longer wants you to be amusing on company time. The only reason he is telling you a joke is to keep his own spirits up.

5. When going to the water cooler, stride up quickly and self-confidently—as if you had really earned the right to a drink—gulp a fast one, and return to your desk. Do not linger around the water cooler to ambush the giggling stenographers. Those days are over—for the duration.

6. Around noon go into the boss's office, ask him if you can borrow some salt and pepper, then explain, "A little personal thrift doesn't hurt anyone, chief. I'm bringing my lunch to the office now."

Why Is Foreign Aid In Trouble?

If the principle of foreign aid, or mutual security, is as sound as President Eisenhower says it is, why is it in trouble in Congress?

What is the reason for going over the heads of representatives and senators to build up support for this year's foreign aid request of \$942,100,000 among citizens outside the government?

Even more puzzling than the tactics being used to roll over the critics of foreign aid in 1958 is the fact the critics are not really opposed to the principle of using U.S. wealth to help foreign countries help themselves in the 20th century struggle for nation survival.

What they are opposed to is the bad name that foreign aid has been given by foolish spending and questionable allocation.

This is what makes it a vibrant issue in Congress in 1958.

Congressmen are answerable first of all to the citizens of the United States whose wealth is being used in a vast project of financial underwriting of the non-Communist world. The citizens think about the severity of taxes levied on their earnings.

The people who administer foreign aid, like the people who administer government in general, have other things on their minds. Instead of thinking about the severity of taxes, they concentrate on the enormity of the undertaking the taxes are going to pay for.

Their failure to make the broad picture of what they believe they have accomplished with foreign aid visible to taxpayers, who

must think first of the narrow picture of their own problems, has made trouble for foreign aid in Congress.

An ordinary citizen whose point of view is made known to an ordinary congressman can not be blamed if either he nor the congressman get a rosy glow about another four-billion-dollar outlay on a program that already has cost 60 billions, with April 15 coming up and a business recession in progress.

While the people who look at the big picture wonder, "Whither the world?" the people who must look 65 days each year at their own little picture wonder, "Whither Joe Doakes?"

That is why the foreign-aid program is on the defensive in Congress.

There will be, in the end, a continuation of the program. It may or may not be in the proportions asked for by the White House; it probably will be something less than the full amount requested.

But the program will be continued because, if it went out of existence, Congress, itself, would undertake a piecemeal resumption of the principle of the program.

If the great majority of the American people were completely certain that no money was being thrown away by happy-go-lucky spenders and no recipients were playing their kindly Uncle Sam for a patsy there would be no more resistance to the idea of mutual security than there is to the coming of spring.

Hang 'Em On a Hickory Limb, But --

The more we hear about the charges and countercharges, allegations and denials in the Federal Communications Commission hearings, the oftener we think of mama's reply to her darling daughter who wanted to go swimming:

"Yes, my darling daughter. Hang your clothes on a hickory limb, but don't go near the water."

How can the FCC go swimming without going near the water?

The FCC and every other independent agency in the government with authority to grant licenses cannot be better than it was intended to be by Congress, which created all the independent agencies.

They were designed to be sitting ducks for influence. Congressmen hoped, of course, that they would do the shooting.

But everybody quickly realized that the members of these agencies, being always knowledgeable and usually political, were susceptible to influence, preferably good influence but possibly bad influence.

There is nothing legally or morally wrong about speaking a good word for a good friend. The commissioners of the independent agencies are not expected to live in a vacuum.

Congress, itself, has assumed the commissioners will move about freely and has made it possible for them to collect "expenses" when they do so, also to accept "honorariums" when they make speeches.

Decisions about the relative merits of influence are the nub of the public service performed by the independent commissions.

The intensity and nature of the influence will be relative, all things considered, to the value of the things being decided.

Once Over

Havana is something by Mickey Spillane, Bill Saroyan and Abe Burrows. Broadway and Hollywood should be bidding for the rights to its winter season. It beat most vacation resorts by taking no chance whatever on weather and depending on drama, high adventure, dice, kidnappings, tense living and show biz routines.

Other playgrounds might trust to temperatures and barometer readings; Havana was in there all winter dishing up revolutionary exploits, hair-raising episodes, street riots and "whodunit" acts. It used its climate, dolls and ordinary playground features merely for an encore.

WITH THE WINTER SEASON nearing its end, you have to admit that Cuba put on the most sensational performances, giving a program complete with high comedy, mystery, deep drama and cloak-and-dagger specialties every hour on the hour. Even the pause for station identification was frequently taken over by a revolutionist leader.

The commercials should have been for high blood pressure cures. It would have surprised no tourist to have looked out any morning and found the Morro Castle gone, President Batista's bodyguard kidnapped to do a dance number in a Castro clambake and a couple of roulette winners tied into a missing persons story. Nobody planned the Havana winter schedule. It couldn't be done.

The events were too big for script writers. They just had to happen through fate, politics, government problems and a general mood of a joint showing of "Arabian Nights" and "Guys & Dolls" in one double feature.

It had everything for the tourist but rocket tests, a boy in a moon-cartridge, horse races in the snow and a demand for electric heaters.

Some countries promise revolutionary plots, some promise government upsets, others offer to put on a fresh world crisis, a fiesta, a world's fair or even a summit meeting. Only Cuba gave you all of these things, matinee and evening, with half price for children.

It merged relaxation with tension and intertwined rest with high adventure. Some visitors suspect that Castro and Batista are

When the value runs into seven and eight digits, it stands to reason to influence will be terrific.

All this is in the nature of the setup, and if Congress doesn't like it there is an easy way to change it.

Instead of making everybody play footsie, polish apples, scratch backs and leave no stone unturned in the hope of winning the favors independent commissions have to be stow, Congress could change the nature of the game.

It could open the valuable licenses the FCC the highest bidders.

It could receive bids and grant licenses to the highest responsible bidders.

Everything would be above the table. The public would get the proceeds, and the responsible bidders would get the licenses.

There wouldn't need to be congressional investigations of real or imaginary funny business because there would be no chance for anything to get started.

Arithmetic cannot be rigged. As to influence, it's always hard to be sure.

Foreign Oil Hits Texas

By RAYMOND MOLEY

Texas is renowned for its wealth and its unusually fine and ample state services in education, highways, its welfare and correctional institutions and its high personal standards of living. These blessings to a considerable degree flow from its great resources in oil, cotton, timber and its shipping.

One of these industries, cotton, has been in distress for some time due to increased cotton production abroad. Now a greater threat comes from foreign oil and its invasion of the American market which has been a heavy taker of Texas oil and gas.

A very considerable part — 22 per cent — of its revenue for state services has come from taxes on its rich oil production. But now, with its market for that oil constricted by foreign oil more cheaply produced, oil production has been seriously pinched.

Its oil stocks have mounted rapidly. Under state authority oil production has been cut back severely.

For March the daily cut-back is over 500,000 barrels and the allowable days of production have been limited to nine. This compares with 18 days in March, 1957. But still oil stocks are a heavy surplus weighing on the market. This is estimated to be, by April 1, 112 million barrels over normal.

Much of the trouble originated during the Suez troubles in 1956 when, in the race of a threatened stoppage of oil supplies from the Middle East, American oil production was allowed to mount.

Because of a pinch now in the Texas oil production industry state revenues have fallen badly. The annual report of the state comptroller shows that for the biennium beginning next September there will be a state government deficit of 100 million dollars.

This would mean that unless there is relief from the glut of oil imports into the United States the state will need to find tax sources which hitherto have never been dreamed of.

The state has been free from burdensome state income and sales taxes. But these are the unhappy alternatives. The state has maintained fine public schools in its communities because of state grants of over 250 million dollars, one-third of which came from oil revenues.

Its fine state supported colleges and technical institutions have shared this wealth.

For some time there has been considerable controversy between the big oil companies which deal not only in American produced oil but also in imports and the "independents" who live only on American oil resources.

Oil journals have been full of this discussion for nearly two years. The big importers have contended that despite their supplies of cheaper foreign oil they are eager to keep the American producing industry alive and prosperous. The independents have charged a threatened monopoly.

Whatever the merits of this argument, Texas, the symbol of wealth and state sufficiency, is in trouble. Its leaders hate the idea of federal financial aid but they claim the right of federal protection against excessive oil imports.

Much will be heard in the present session of Congress about this issue.

Calling Soviet Bluff

By DAVID LAWRENCE

Western Allies Won't Permit Russia to Call Turns

The Western Allies will not permit the Soviet Union to call the turn and play a frivolous game with the "summit conference" idea. Secretary Dulles now has clearly served notice on the Soviets to that effect.

The only reason here before given for a lack of a strong counter offensive is that "people generally" are supposed to be in favor of conferences that seek to make peace.

What this really means is that inside every Allied country are minority groups which are exploiting the issue and are unwittingly playing the Communist game. The truth isn't being emphasized—that the Soviets are themselves blocking peace by their tactics.

In the Western democracies it is sometimes thought by various groups to be more important to win an election than to support the government of one's own country. The people of the United States are, for the most part, supporting their government but the same cannot be said of the factions in the British Socialist party whose utterances are giving the Communists considerable ammunition for their worldwide radio broadcasts.

In France the party divisions are even more pronounced and the Communists actually have a substantial bloc of representatives in the French Parliament itself. The world may wonder but it gets no satisfactory explanation of why a group that is more devoted to the interests of the Soviet Union than to the interests of France is permitted to muddy the legislative waters there right along.

UNDER SUCH circumstances, the path of leadership of the Western Alliance is a rocky one. The United States naturally has to consult its allies, and every new development has to be viewed in the light of what the political effect will be in each country.

Plainly, if the Western Allies are handicapped by their divisions and differences, it behooves the United States to map out a strategy that takes the ball away from the Soviets.

One way is to set forth publicly a list of things that are essential to the making of world peace. Too often in America reliance is placed on a single speech or statement even when, after a month or more has elapsed, the Soviets have turned the discussion into other channels and it becomes necessary to reiterate the fundamentals, not once but again and again. Yet this is rarely done by America. As it is, the Soviets are represented as wanting peace and the United

States as opposing it just because the "summit conference" isn't being convened right away. Spokesmen for the United States and the other Allied countries have made it clear that they all favor the "summit conference" in principle but that there must be shown beforehand some evidence which promises agreement on at least a few subjects.

This is logical but not necessarily effective, because it confines the argument to a single issue — what can be accomplished by a "summit conference" with all the klieg lights turned on in some sort of spectacular show.

IT IS BESIDE the point to say America can play propaganda games, too, and need not be afraid of engaging in such a contest. For in the end the world is asked to judge between two kinds of propaganda covering a confusing hodgepodge of subjects, no one of which could possibly be given the emphasis it deserves.

The Western Allies would be in a stronger position if they demanded that the Soviet government take up now — and not at a "summit conference" — each important topic and state a willingness or unwillingness to make an agreement.

The machinery for negotiation already exists. In every capital there is a Soviet ambassador and in Moscow there are British, French and American ambassadors as well as representatives of the other Allied countries.

Only this week the Russian ambassador to the United States was given a private audience with President Eisenhower and Secretary of State Dulles at the White House. What more favorable opportunity could there be for reaching the "summit" than this?

THE WESTERN ALLIES should have a consultation of their own and agree with each other on a program of negotiation — point by point — and insist on getting results through diplomatic conferences in Washington, London, Paris and Moscow.

Refusal of the Soviets to agree to such procedure would mean, in effect, that they discredit the whole system of diplomatic relations which has so long been established in world affairs as an instantaneous means of communication.

After a reasonable length of time has been given the Soviets to indicate their attitude on each subject, the Western Allies could publish fully their own views and leave it to world opinion to decide who really is blocking peace.

The whole "summit conference" idea is a diversionary tactic by the Soviets — a means of delaying the measures that must be taken to prevent a nuclear war and a method of taking the spotlight off the tragic situation inside every country behind the iron curtain.

The Bright Spots

By SAM DAWSON

NEW YORK — You have to dig to find the bright spots today in the business gloom but they are there.

Many companies and some industries are doing fine. A lot of others are far from being sick. Still others look bad only when you compare them with the record peaks of yesterday, that bright era when the general business view was that there was only one direction—up.

Some of today's stars are those that shine the most when many more cyclical industries are in a downswing.

The utilities are an example. Many investors find their stocks attractive now because the prospect is good that utility output will vary to a much smaller degree during the slump than will some of yesterday's favorites, the growth industries.

Also the earnings of this rate regulated industry are likely to stay on a more even keel. And most utilities are so sure of their future prospects that they are continuing with their expansion programs.

Stars both in earnings and stock market performance are the

drugs and tobaccos. General business slumps affect them little. The same goes for the food processors and the grocery chains.

The American Chemical Society after surveying chemical executives across the land says that this industry is faring better than most other businesses and that the outlook is hopeful.

Big steel leaders see a slight pickup in new orders and hope for no more cutbacks in production from today's level—unfortunately just a little more than half of capacity.

In manufacturing as a whole more purchasing agents report gains in orders in February than did in January.

Several companies with orders stemming from the missile program have called men back to work.

Home builders note two things with glee:

1. Government agencies that guarantee mortgages report a pickup in interest among would be home owners.

2. Government agencies controlling the flow of credit have eased the general money market and have relaxed some of the mortgage financing rules. Contractors are also watching the move in congress to step up the public housing program.

The home building industry is definitely less gloomy than it was a year ago—in fact, many in it are real optimists now.

Inventories are still shrinking. Then there are some price wars on consumer goods. For manufacturers and retailers this is a mixed blessing: Top heavy stocks are being whittled down but at a crimp in the profit margin.

To consumers the wars seem the brightest spots of all in this time of recession.

The chorus rehearses every Tuesday night at 8:15, with the business and social meetings held the first and third Tuesday of each month, respectively.

Guessing games are all right at a party. But the telephone isn't the place to play them. If you call up someone who hasn't seen you in years when you are visiting in another city don't be coy and say, "I'll bet you can't guess who this is."

YVES SAINT-LAURENT — The youthful successor to the late Christian Dior designed a short evening dress in white Chantilly lace. He calls the silhouette the "pyramid" look, flaring out and down from a narrow bodice, dramatically ballooning out in back with a gathered panel. A white satin rose is framed in a satin bow with long streamers knotted just under the bosom. The dress is shorter in front than in back, barely reaching the knee cap. The headress is of matching lace.

Six circles of the Daughters of Emmanuel of the Emmanuel Lutheran Church met in separate sessions recently.

Ruth Mrs. Carl Abe was associate hostess when the Ruth Circle met at the home of Mrs. Ronald Whipkey. Sixteen members and three guests, Mrs. Richard Freseman, Miss Claribel Bickel and Mrs. Adam Esterle, were in attendance.

The meeting was opened when the group sang "My God and I," and roll call was answered with a scripture verse. Devotions from Luke were conducted by Mrs. Edward Lesch.

Mrs. Whipkey, program chairman, talked on "Missionary Work in New Guinea," discussing the hospital and show systems there. Mrs. Freseman talked and showed slides on Mexican Missions in Texas. Pictures of various churches and activities in the missions were shown.

Mrs. Matt Leibhart, new circle leader, conducted the business session. Mrs. Lesch is the new secretary - treasurer.

It was announced that all women in the community are asked to help with the Red Cross sewing

Friday at the Christian Church. The sewing session is sponsored by the Salem Council of Church Women.

The project committee for March and April is composed of Mrs. Vincent Moore, chairman; Mrs. Herman Linder and Mrs. Alton Fenton.

The New Guinea chairman is Mrs. Charles Alexander; Mrs. Whipkey will have charge of the prayer booklets; Mrs. Dan Weber was appointed thank-offering chairman; and Mrs. Charles Nelson will have charge of collecting white shirts for the leper colony.

Refreshments were served by the hostesses.

Hannah Mrs. Gus Schuster of E. State St. was hostess to 17 members of the Hannah Circle. Mrs. Fred Umbach, a new member, and a guest, Mrs. Carl Ulicny, also were welcomed.

"To Witness the Power of Love" was the devotional topic presented by Mrs. John Huber.

Mrs. John Bauman, program chairman, used a globe world map and a candle to illustrate her talk, "Going Into New Guinea." Mrs. Norman Muntz and Mrs. George Gottschling spoke on medical care

and education, respectively, in New Guinea.

The Nobonob Girls School in New Guinea was described by Mrs. Dale Thompson, and Mrs. John Meltschka told about the native teachers there. Mrs. John Theiss talked on "Facts on New Guinea."

Mrs. Freseman showed slides on the Mexican missions.

A discussion was held on the possibility of forming a Bible study class.

Lunch was served by Mrs. Anna Schuster and Mrs. Elizabeth Girscht, co-hostess.

Esther

Mrs. August Wickman entertained members of the Esther Circle, with Mrs. Rudy Bodendorfer serving as associate hostess.

The group sang "My God and I" to open the meeting. Ten members and three guests, Mrs. El-dred Weber, Miss Loretta Bodendorfer and Miss Jennie Hrvati, were welcomed.

Mrs. Peter Herman gave the opening devotion and prayer. Mrs. Simon Spack reported on the February Missionary Outlook magazine, and Mrs. Bodendorfer conducted the business session.

Projects for the months of March and April are to visit the sick and serve as church hostesses.

A social time was enjoyed when lunch was served.

The next meeting will be at Mrs. Herman's home, with Mrs. Joe Winkler as co-hostess.

Naomi

Naomi Circle members met at the home of Mrs. Fred Brantsch. Mrs. Simon Theiss was co-hostess.

The 11 in attendance sang "My God and I" and answered roll call with a scripture verse.

Mrs. Robert Hill led the devotions, using the subject, "To Witness the Power of Love."

Mrs. George Theiss, program chairman, used "Reaching Through Healing" and "Viewing World Missions in New Guinea" as her discussion topics. The Bible study theme was "To Show Love Toward Our Neighbors."

Mrs. Henry Leprich reviewed an article on "Modern Tithing."

Mrs. Rudy Linder will be project chairman for the nursery during March and April.

The next meeting will be held at the home of Mrs. Elwood Hammell.

May

Mrs. Frank Mangus Jr. of Home Circle entertained members of the Mary Circle at a breakfast meeting.

Mrs. Richard Freeman was in charge of devotions. She gave an illustrated talk on missions in Texas.

Members planned to attend the sewing session Friday at the First Christian Church.

Martha

Rev. and Mrs. Richard Freseman were hosts to 13 members of the Martha Circle.

The annual mother-daughter banquet was planned for May 2.

Mrs. William Adams was devotional chairman. Mrs. Daley presented the topics, "Paradise for Lepers" and "Hospital at Jaguam, New Guinea." A dramatic skit, "Viewing World Missions in New Guinea" was given by Mrs. Adams, Mrs. George Spack and Mrs. Dean Nordquest.

Slides of Mexican missions were presented by the hosts.

With The Patients

Robert Heddleston of 980 Highland Ave. is a patient in Youngstown North Side Hospital.

Book Review Heard By Travelers Club

Mrs. G. E. Byers was guest speaker at the Travelers Club meeting Tuesday afternoon in the Smucker House.

The president, Mrs. Leeds Frye, opened the meeting for the day with the quotation, "I have often thought that a story-teller is born, as well as a poet," by Richard Steele.

Roll call was answered by 36 members.

Mrs. Byers reviewed the book, "All I Want Is Everything" by Marion Mill Preminger. It is a story of a Hungarian woman's quest for happiness, and reveals many humorous experiences in her life as she tries to attain her ambition.

After coming to the United States to live, Mrs. Preminger became a naturalized citizen. Upon her return to Europe, she became a faithful follower of Albert Schweitzer and learned from him that true happiness comes when one gives of oneself.

Tea was served by a committee consisting of Mrs. W. E. Cope, Mrs. F. T. Cope Jr., Mrs. Orvil Hoover, Mrs. Harry Krohne, Mrs. Floyd McKee, Mrs. T. A. Mercer, Mrs. Joel H. Sharp and Mrs. K. U. Wirtz.

An arrangement of spring flowers centered the table with Mrs. Frye and Mrs. Thomas Howett presiding at the tea service.

The group will meet again Tuesday.

Inside Labor By Victor Riesel

Victor Riesel

If anyone believes that labor's high command plans to sit out this congressional campaign, he is living in the penthouse suite in some ivory tower. True, labor has said little about politics but there is a 19-page blueprint for action in the files of the Committee on Political Education — COPE, — the AFL-CIO's own national political committee.

Marked "Confidential," it painstakingly provides instructions for getting millions of union members into the precincts come summertime.

The report promises its people it will distribute at least 40 million pieces of literature in the next eight months.

"During his election year COPE plans an intensive public relations campaign which will utilize new leaflets and handbills, posters, special news letters, pamphlets, special bulletins to particular states where particular situations warrant, films, radio and television. The pieces of literature we will use should total between 40 million and 50 million," the report reveals on page 16.

WHILE THESE pour from COPE's central headquarters in Washington, labor's high command has earmarked over \$200,000 to place full time labor - political directors in states where the unions are least influential and have special targets for defeat. On pages 2 and 3, the report reveals:

"The success or failure of the COPE program rests basically on the amount of grass roots activity. Elections are won in the precincts more often than in the headquarters. ... This program contemplates that COPE will match, up to \$5,000 a year, funds put up by a state COPE for the purpose of employing a full-time COPE director or, where a full-time COPE director is already employed, a full-time director of women's activities.

"Negotiations to launch such a program are under way in the following states: Nevada, Utah, Arizona, Idaho, Montana, Wyoming, New Mexico, Oklahoma, North Dakota, South Dakota, Nebraska, Mississippi, Arkansas, Georgia, South Carolina, North Carolina, Maryland, Delaware, Vermont, New Hampshire and Maine.

"It is expected that this program will substantially stimulate activity on the local level in the political field."

PART OF this activity will be one of the most sweeping political drives any organization has attempted — the registration of every one of the AFL - CIO's 13½ million members.

This drive springs from the recommendation of George Meany that "registration should not be merely part of a short-lived, high-pressure political campaign but should instead start the day after election and become an integral part of the normal, everyday work of each international and local union organization."

Right now permanent committees are being set up in each local union — the goal being some 60,000 — and each local central body. The drive was launched because of what the political leaders report has been a "false self-confidence, a feeling that 'most of our people are registered.'"

"This is simply not true: MOST OF OUR PEOPLE ARE NOT REGISTERED. When our people learn the facts, they will be shocked into action."

In some unions less than 10 per cent of the membership is registered and eligible to vote. This is better than in 1954, when it was learned that some unions had as few as 1½ per cent eligible to vote.

Therefore COPE has quietly started "a national inventory of registration." This is the first time in the history of American labor that such a countrywide inventory has been taken.

COPE SENT OUT a letter to each of the AFL-CIO affiliates. These national outfits, in turn, are writing to each of their locals. The locals are expected to fill in cards on who can vote and then rush the information back to central headquarters.

What I have reported here is but the sketchiest of details on just a few of the highlights of labor's drive to defeat scores of congress-

Amini was quoted as saying that Mideast oil income should be distributed for development purposes in proportion to the size of the countries concerned.

men it believes too conservative or unfriendly. Soon public war will be declared on labor's political opponents — at a special "educational conference" early this year in the Midwest.

"It is contemplated that the conference will cover political techniques such as registration, dollar collections, organization of COPE's election day procedures and the organization and activities of women's divisions," says the confidential report.

Guarding Your Health

Aiding Physically-Handicapped

It is always a pleasure at this time of year, during the Easter Seal campaign, to say something about the physically handicapped.

Quite properly a great deal of attention is paid to research. Among the questions for which answers are being sought by research grants are: What are the causes of crippling? Can the number of children born with physical disabilities be reduced?

What type of treatment will best lessen the after effects of crippling? What forces motivate crippled persons to struggle towards recovery? And are there improved methods of rehabilitation which will make it possible for crippled persons to make full use of their capacities?

It is by seeking answers to such questions that it may become possible to lessen the number of physically handicapped and to improve their chances for full or partial recovery if crippling should occur. These aims are in the best traditions of medicine.

BUT THE CARE and treatment of thousands of crippled children and adults is not waiting for new knowledge.

The Easter Seal Societies operate more than 1,400 programs and facilities, including diagnostic and evaluation clinics, treatment centers, rehabilitation centers, nursery schools, resident camps, sheltered workshops and similar facilities.

During 1957 Easter Seals helped over 132,000 children and over 26,000 adults. It provided the sch-

olarships, fellowships and grants to help train over 2,000 doctors, therapists and social workers in this same field.

But the human side of this help to the individual cannot be reflected in mere quotation of figures.

IMAGINE, for example, a 9-year-old girl who could drop her crutches to the ground and take her first steps without them.

Think of the 4-year-old who took her place at a low, round table in a special nursery school, inspected the little girl next to her and noticed that they used identical crutches. She put out a tentative hand and touched her neighbor on the arm, this being her first contact with another child in all her life!

(In Salem the Easter Seal campaign is sponsored by the Rotary Club.)

Upsets Sweep Across Class A District Tourney Scene

Buchtel-York Trips Glenford; Maysville Downs Bethel 86-73

COLUMBUS, Ohio (AP) — A wave of stunning upsets swept across Ohio's Class A high school district tournament scene Wednesday night, toppling a host of highly-touted talent.

Ousted from competition were Glenford's Golden Horde, rated the No. 1 team in the state, and colorful Little Bethel of Monroe County, the No. 3 choice and the last of the 1957 state tourney finalists.

The Class AA games ran almost true to form, but in the 10 Class A contests eight teams defeated quintets with better records.

Glenford's 24-game winning streak was halted rudely by Buchtel-York at Athens, 58 to 41, the winners running their record to 22-1. Bethel and Maysville matched 22-1 records going into their game at Zanesville, but Maysville (formerly South Zanesville) came out of it with an 86-73 conquest.

The defeats left only second-rated Miller City (21-2) and eighth-rated Dixie of Montgomery County (23-0) of the top 10 picked by the sports writers in the final Associated Press poll.

In Class AA, five of Middleton's top 10 challengers won games Wednesday night. They include Cleveland East Tech (2), Zanesville (3), Elyria (8), Hamilton (9) and Cleveland St. Ignatus (10). Only Salem has dropped from the elite in the larger school

division, although only 54 of the 387 starters are still around. The original field of 646 in Class A has been trimmed to 45, and both divisions will be down to 16 by Saturday night. The 16 in each class go into regional play next week to name the state tourney finalists.

Only one game will send a pair of top 10 teams at each other in district play, Hamilton meeting Middletown Saturday at Cincinnati for a regional spot. The Big Blue (17-3), has been beaten twice this year by the Middies who have a 21-0 record for the year and 73 straight over three seasons.

Wednesday night's victories placed Elyria, Cleveland East Tech, St. Ignatus, Zanesville and Hamilton within one game of a trip to the regionals. The playoff contests are Saturday. Toledo Scott (4), Columbus North (6) and Cincinnati St. Xavier (7) must win two to get into next week's competition.

Knicks Drop 102-91 Loss To Nationals

By The Associated Press
Philadelphia can close the book on another disastrous campaign for the New York Knickerbockers tonight by defeating the Cincinnati Royals on the Warriors' home court.

A victory for the Warriors would enable them to clinch the third and last playoff position in the Eastern Division of the National Basketball Assn. and insure the Knicks of a cellar finish for the second straight season.

The Knicks reached the "brink" Wednesday night when they lost to the Syracuse Nationals 102-91. Now the best the Knickerbockers can do is tie for third place. And they can accomplish that only if they win all three of their remaining games and Philadelphia loses the four games it has left.

Syracuse, runnerup in the Eastern Division, broke a tie on a basket by Dolph Schayes late in the third period and held the lead the rest of the way. Schayes led the winners with 20 points. But game high honors went to Willie Naulls of New York with 21.

In the night's only other game involving the divisional champions, the Boston Celtics and St. Louis Hawks, the Celts came out on top 109-102. Frank Ramsey ignited an eight point surge with a pair of baskets that carried the Eastern Division titleholders to victory. Bob Pettit had 30 points for the Hawks. Bob Cousy had 22 for the winners.

Michigan State Set To Take on Indiana

CHICAGO (AP)—The Big Ten's two best basketball teams—1957 co-champions Indiana and Michigan State—meet in a winner-take-all game Saturday. The victor will get the conference crown as well as a berth in the NCAA tournament.

Big Ten statistics rate Indiana as the top offensive squad and Michigan State as the leading defensive team in the conference. Each has a 9-4 record going into the finale at East Lansing, Mich., which will be shown on a 40-station regional television network (3:30 p.m. CST).

The conference statistics confirm opinion that it shapes up as a heated battle. The Spartans have held opponents to an average yield of 69.2 points and have been scoring from the floor with a .410 percentage. The Hoosiers, on the other hand, have averaged 84.2 points in each of 13 games, and have a .408 marksmanship record.

In the Hoosier ranks is the Big Ten's ace scorer, Archie Dees, but the Spartans have the conference's best rebounder, Johnny Green. Dees has averaged 26.8 points per game to top the league. Green has averaged 16.1 rebounds for a total of 209.

Glasgow, Scotland — Peter Keenan, London, stopped Dick Currie, Scotland, 10. (Bantamweights).

THE BIG MAN IS IN CAMP — Manager Pinky Higgins of the Boston Red Sox, left, and the club's \$125,000 ball player, Ted Williams, are a smiling pair at the opening of spring training at Sarasota, Fla.

Wins Team Trophy For First Time

Toledo Captures Three Golden Gloves Crowns

CHICAGO (AP)—Toledo captured the lion's share of Golden Gloves Wednesday night, winning the team trophy for the first time in the big amateur boxing show in Chicago Stadium and taking three individual crowns.

An hour of the 14-bout program was televised nationally. During this time, Wilbur McClure of the Toledo squad won the middleweight title. He defeated southpaw Jim Martin of Wichita, Kan.

Other Toledo battlers to win championships before a crowd of 11,386 were flyweight Gill Yanez and welterweight Dave Holman.

They as well as other champions will be on the Chicago team that meets New York's best in

Hamner Nearly Cinch to Start For Phillies

CLEARWATER, Fla. (AP) — Only 15 months ago Granny Hamner was advised by a doctor he would never play baseball again. Today, the veteran Phillie infielder is practically a cinch to open the 1958 season at second base.

"Only a miracle would enable you to play again," the doctor said. "It would be an act of God if you could swing a bat properly."

Six months before, Hamner had jammed his left shoulder diving for a ball. He ripped a tendon right next to an old injury — another torn tendon — that still had not fully healed after an operation. More than a year of sheer torture followed.

But the gritty Virginian refused to give up. He tried to start all over again as a pitcher. It didn't pan out.

When the Phillies ran into trouble at second, he stepped in and did a satisfactory job for a time but the pain became so severe that his hitting suffered and he finished the season with a subpar .227 batting average.

Still he refused to admit defeat. During the past winter he took a job as coach of the paraplegic basketball team at McGuire Veterans Hospital in his home town of Richmond.

"Then the miracle referred to by the doctor occurred," Hamner, 30, related during a lull in the Phillies' training camp. "The pain in the shoulder became less and less. Now it has disappeared altogether."

"We didn't have but nine players on the team. I had to scrimmage with them every day. Pushing those wheel chairs is as good exercise as you could get. I not only built up the left shoulder but the right as well. I'm as good as new now."

Big Ten Opens Three-Day Swim Meet

IOWA CITY, Iowa (AP)—Michigan, all-time leader in Big Ten swimming titles but without a championship in nine years, brings the best balanced team into the three-day conference meet opening today.

Michigan State, defending champion and only team to break Ohio State's eight-year reign after Michigan last won the title here in 1948, should offer the Wolverines their principal challenge.

The Wolverines were undefeated in dual meets this season, including a 67-30 victory over Michigan State in which they won 9 of 11 events and recorded some of their fastest times of the year.

This year's 16-event schedule, to be swum over the 25-yard course, features Olympic team members from the United States, New Zealand and South Africa, national collegiate champions in three events and six swimmers who won eight conference titles in 1957.

The 1,500-meter freestyle, an Olympic event not contested in meets, opens the meet at 7 p.m. today.

Preliminaries and finals in eight events will be contested Friday and the last seven events, preliminaries and finals, will be run off Saturday afternoon and night.

The host team, probably lacking in championship team depth, would like to win it for Coach Dave Armbruster, who is retiring after 42 years of service. Iowa last won the title in 1936.

Michigan's bid will be led by Dick Hanley, who set a world record of 2:01.5 in winning the 220-yard freestyle last year and who also won the 100 free; Cy Hopkins, winner of the breaststroke and butterfly stroke, both in Big Ten record times; and Dick Kimball, national collegiate champion in one and three-meter diving.

Frank Torre Agrees To Terms With Braves

BRADENTON, Fla. (AP) — The Milwaukee Braves announced today that first baseman Frank Torre had agreed to terms in a telephone conversation from his Brooklyn home.

No reference was made to salary. With Torre in the lineup only two of the world champions still are holding out. They are Lew Burdette, pitching star of the 1957 series, and outfielder Wes Covington.

Plans Completed For Sportsmen's Banquet

Arrangements have been completed for the sportsmen's banquet scheduled Friday at 7 p.m. at the Valley Golf Club at Columbiana. Dinner will be followed by a program and dancing.

The annual affair is sponsored by the Columbiana County Federation of Sportsmen.

Hood to Face Hodge In Boxing Tourney

NEW YORK (AP)—A heavyweight bout between upsetter Charley Hood of Washington and undefeated Dan Hodge of Wichita, Kan., today figures to be the star attraction in the annual Inter-City Golden Gloves championship fight March 24.

That's when the New York-Eastern team meets the Chicago-Western squad in Madison Square Garden.

Both Hood and Hodge, the Olympic wrestler turned boxer, won their sectional titles Wednesday night, Hood in the Garden and Hodge in the Chicago Stadium. Hodge, 25, outpointed Louis Coleman of Chicago to rack up his 16th victory since he switched from grappling to fighting with Gloves. His triumph was not unexpected.

Hood's sensational victory over New York's vaunted Tommy Carcone, however, was a major upset. That was a semifinal but it turned out to be a final for Hood, a 22-year-old, 192-pounder from Howard (D.C.) University.

Penguins to Represent Ohio in NAIA Tourney

YOUNGSTOWN, Ohio (AP) — Youngstown University again will represent Ohio in the National Assn. of Intercollegiate Athletics basketball tournament at Kansas City March 10-15.

The Penguins defeated Wilmington, 80-59, Wednesday night in the championship game of the NAIA District 22 tournament here. They went to the quarterfinal round in the Kansas City tourney last year before being eliminated.

Wednesday night's victory was the 21st in 27 starts for Youngstown. The Penguins held a 38-26 advantage at halftime and increased it to 53-33 after the first seven minutes of the second half. Findlay College trounced Defiance, 108-68, in the consolation game to take third-place honors.

Fencers From 6 Big Ten Schools to Cross Blades

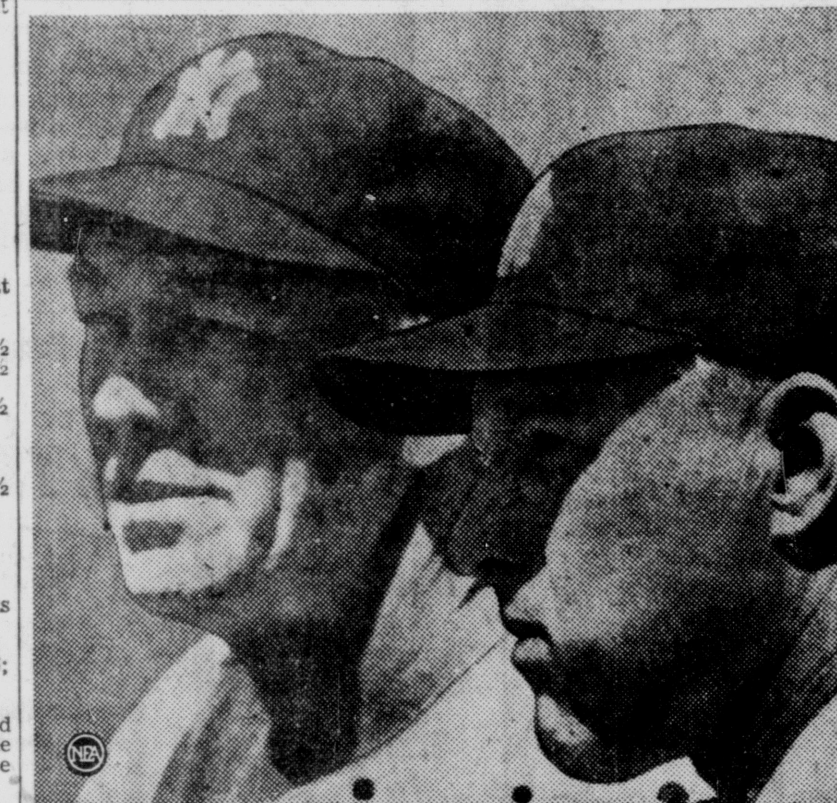

EAST LANSING, Mich. (AP)—Fencers from six Big Ten schools will cross blades here Saturday to decide the Western Conference championship.

Wisconsin, the defending team champion, and runnersup Illinois and Ohio State are favored over entries from Michigan State, Iowa and Indiana.

Two individual titlists will be on hand—Paul Mortenson of Wisconsin, who won in the epee last year, and Arthur Schankin of Illinois, winner in the foil who has switched to the sabre this season.

PITULA TO BE LAID UP

TUCSON, Ariz. (AP)—Righthander Stan Pitula of the Cleveland Indians will be laid up about two months as the result of a torn elbow muscle suffered Wednesday while pitching in an intrasquad game.

FACING FACTS—Bill Dickey, left, and Ralph Houk, Casey Stengel's coaching assistants, let their expressions show nothing as they watch rookies trying to impress them at St. Petersburg, Fla.

Robertson Holds Edge Over Baylor

By The Associated Press
Cincinnati's Oscar Robertson, who makes it look easy when he's on the basketball court, may have clinched the major college season scoring title Wednesday night without lifting a finger.

While All America Oscar was idling, All America Elgin Baylor of Seattle was hitting one of his season low marks, scoring a mere 21 points in a 73-60 victory over Idaho State.

Now, with each assured of two more games depending on how their teams go in the NCAA tournament, Robertson leads Baylor by eight-tenths of a point with a 34.76 average to the Seattle ace's 34.96. Eight-tenths is no runaway but, broken down on the basis of two more starts for each, it means Baylor would have to outscore Oscar by 20 points to top the amazing Bearcat sophomore.

Robertson closes his regular season against Xavier of Ohio Saturday night before moving into the NCAA regional at Lawrence, Kan., March 14. Baylor has a pre-NCAA date with Bradley next Monday.

The 6-5 Seattle junior hit on nine field goals and three of seven free throws last night before fouling out with 5½ minutes left.

In the East, much-thumped Duquesne furnished the highlight with a 55-54 upset of a St. Bonaventure team that had won 15 in a row.

The Bonnies, seeded third for next week's National Invitation Tournament at New York earlier in the day, fell behind by nine points at halftime and never threatened against the Dukes, only 10-11 for the season.

Dayton drew the top seed for the NIT Tournament beginning March 13, with defending champion Bradley No. 2 and Utah of the Skyline Conference No. 4.

Butler of Indianapolis, winner of 9 of its last 10 for a 16-9 record.

ord, was named to complete the 12-team NIT field and paired against St. John's of Brooklyn in the tourney's opening double-header. St. Joseph's (Pa.) faces St. Peters (N.J.) in the other game.

Niagara, Xavier of Ohio, Utah, St. Bonaventure, Fordham, and St. Francis play their first games March 15 with Bradley and Dayton moving into action March 18. Fordham, Niagara and St. Joseph's warmed up with victories Wednesday night. Jim Cunningham fired in 36 points in Fordham's 107-78 rout of Rutgers while St. Joseph's, coming from nine points back with five minutes remaining, nipped LeMoyne (N.Y.) 69-68 on Bobby McNeill's free throw with four seconds to play.

Niagara, closing out a 19-6 regular season, whipped Syracuse 78-63 as Boo Ellis netted 22 points and grabbed 27 rebounds for a 502 total that leads the country.

Poland Bulldogs Are Eliminated by Wooster 69-49

The Poland Bulldogs were eliminated from 1958 tournament play Wednesday night when they were beaten by the Wooster High Generals 69-49 in a district semi-final clash at Kent.

The Bulldogs were ahead 26-23 at the half but the Generals ripped the game wide open in the second half with a sterling offensive that saw them outscore Poland 46-23.

Doug Hill ended with 24 but it wasn't enough for the losers who finished their season with an 18-4 record.

Tracy had 14 to lead the winners.

Wooster now plays Youngstown South Saturday night, with the winner advancing to regional play at Kent.

Score Strikes Out 6 Men in 3-Inning Intrasquad Game

Hurler Fans 4 Of 1st 5 Batters Young Left-Hander Says He 'Felt Great'

By The Associated Press
Cleveland's Herb Score, who baffled American League batters with his blinding fastball and crackling curve before suffering a damaging eye injury early last

season, is back on the beam and the Indians may have to be reckoned with in this year's pennant race.

In his first appearance under game conditions since being hit in the right eye by a line drive off the bat of the Yankees' GI McDougald, last May 7, Score struck out six men in a three-inning intrasquad game Wednesday.

The 24-year left-hander fanned four of the first five batters he faced. He weakened a bit after that and gave up a run on two singles and a pair of walks.

"I felt great," Score said later. "Had a little trouble getting my curve over, but my fastball was good and I was throwing as hard as I could."

If the Indians are to improve on their sixth-place finish of last season Score is the guy who'll have to carry most of the pitching load.

Herb won 16 games in his first big league campaign in 1955 and followed it with a 20-9 performance in 1956. He led the league in strikeouts in both seasons.

Score's apparent recovery tempered the rather gloomy re-

ports that emanated from some of the other major league camps.

Outfielder Irv Noren sustained a possible fractured rib when he crashed into a grandstand wall in a St. Louis Cardinals' pepper game. The veteran was ordered to a hospital.

And outfielder Duke Snider,

pitcher Johnny Podres and infielder Don Zimmer of the Los Angeles Dodgers were injured when an automobile driven by Snider was in an accident. Snider reinjured his left knee, operated

on last December. Podres hurt his

neck and Zimmer came out of it with a bruised forehead.

Preliminary X rays of Snider's knee and Podres' neck for possible fractures proved negative.

At the Chicago White Sox' quarters in Tampa, Fla., a bone specialist directed that outfielder Al Smith take it easy for 10 days because of an inflamed tendon.

Several other teams prepped for Saturday's opening of the exhibition schedule by playing intrasquad games.

Hole, Salem Native, Quits At Wooster

WOOSTER, Ohio (AP) — E. M. (Mose) Hole, College of Wooster basketball coach for 32 years, retired from the cage game today. He turned the job over to James Ewers, his junior varsity aide. The veteran Wooster coach is a native of Salem, O. His father was the late Willis R. Hole.

Hole will continue as athletic director of the Scots, whom he led to a 15-4 season this year and third place in the Ohio Conference. Wooster closes against Case Tech tonight.

Using an offense known as the "spray system," Hole's teams set some interesting record. His 1952-53 team took 2,114 shots in 21 games for the national collegiate firing record, and during the 1938-39 and 1939-40 seasons the Scots won 36 straight contests.

In 32 seasons Hole's quintets won 411 games against 181 losses. Ewers, who joined Hole's staff

last year, is a native of Fredericktown.

TO ENTER OHIO STATE
HUNTINGTON, W. Va. (AP)—Tom Perdue, All-West Virginia football and baseball star at Vinson High School here, says he will enter Ohio State University next fall. Perdue, a 6-foot, 195-pounder, played fullback on state championship teams the last two years and was an all-state catcher in baseball for two years.

this year of Westminster College, was hired tentatively as a seventh grade teacher. He will also be an assistant coach. His salary was set at \$4,000 per year.

Sandra Lee Beers, 19, of 320 S. Lincoln Ave., who will complete a two-year teachers course at Kent State University in June, was hired as a second grade teacher. She is a daughter of Mr. and Mrs. Ray Beers and a 1956 graduate of Lisbon High School. Her salary was set at \$3,000.

Schedules for the industrial arts classes in the high school were discussed. The board is considering spending about \$1,500 to expand the woodworking room and add more equipment in order to accommodate more students.

The board authorized Principal George Nace Jr. to attend either the North Central Association meeting or the convention of the National Association of Secondary School Principals.

County sanitarian Tom Boyce recommended that lighting over the food preparation surfaces in the school cafeteria be increased, and the board authorized the Firestone Electric Company of Salem to do the work for \$148 which will be taken out of the cafeteria fund.

Financial reports on receipts following basketball games were given: Sebring, \$191.70; Minerva, \$65.85; Poland, \$162; and Leetonia, \$75.

The next regular meeting of the board will be April 8 at 7:30 p.m. in the High School.

Columbiana Switch

Tampering Reported

Unofficial reports of a switch tampering at Columbiana were received by police here Wednesday as FBI agents and Pennsylvania railroad detectives continued their investigation of a near train collision in Salem Sunday night.

Although railroad detectives could not be reached for comment today, Police Chief George Early said he had heard a switch near the Kaiser Aluminum plant just west of Columbiana was found "thrown open" yesterday.

Three switches were thrown here Sunday night, causing a freight train to swing onto the line of an east-bound passenger train, "The Steeler." The freight crew flagged down the passenger train.

County Fairs Receive

\$4,300 In State Funds

Columbiana and Mahoning County agricultural societies received a \$4,300 apiece today from the Ohio Fairs Fund, distributed by Dr. James R. Hay, state agriculture director.

The money is made up of receipts from a one-half and one percent tax on pari-mutual wagering on harness and running races. The tax went into effect last June 11. The total state collection was \$453,000.

ATTENDING MEETING

LISBON — Galen Greenisen, president of the Columbiana County commissioners, is in Columbus today attending the legislative committee meeting of the Ohio Association of County Commissioners. They are studying highway financing problems of the counties.

11 Drivers Fined By Judge Crawford

LISBON — Eleven motorists recently were fined a total of \$475 and costs by County Judge Samuel Crawford on traffic charges, and three drivers forfeited bonds when they failed to appear for hearings.

All were cited by the State highway patrol.

Fined were: Curtis J. Hayes, 32, of Ravenna, \$150 and three days in jail, driving while intoxicated, and \$100, driving without a license; Donald L. Berry, 20, of 305 Pritchard Ave., Lisbon and Andrew Burinda, 35, of Canton, each \$25, driving left of center.

George Tennant, 36, of Akron, \$25, reckless operation; Gerald E. McCoy, 33, of Negley RD 1, \$10, and Frank L. Weaver, 35, of Cleveland, \$15, crossing the yellow line; Frank L. Jenkins, 48, of Lisbon RD 4, \$25, driving unsafe vehicle.

Mathilda J. Albright, 51, of Leetonia RD 1, \$25, failing to stop within the assured clear distance ahead; Roy E. Johnson, 19, of Lisbon RD 2, \$15, speeding; John W. Raffle, 21, of 504 Water St., Salineville, \$10, illegal parking; and Jasper R. Blamer, 53, of Kensington, \$5 failing to stop for a stop sign.

James E. Moore, 36, of East Liverpool RD 1 and Alice M. Crowell, 37, of Lisbon each forfeited a \$10 bond for driving left of center. Charles F. Papindry forfeited a \$15 bond for crossing a yellow line.

The new members were welcomed at a meeting of the Damascus Ruritan Club Wednesday night in the Damascus Methodist Church. Women of the church served dinner to the 34 present.

The new members are Rex Israel, William Cope, Clyde Whitacre and Burt Hendricks.

Proceeds from a benefit planned will be used for a community project. It also was voted to sponsor the Damascus Boy Scouts. Money was given for groceries, coal and clothing for a needy family in the community.

H. O. Stanley, chairman of the sequentennial committee, reported on proposed plans for the celebration.

A Ruritan meeting to be held April 8 in Lisbon was announced. Rone Schwegle will be the speaker.

Annual Dinner Set At East Palestine

County Democrats Will Hear James Roosevelt on April 26

James Roosevelt, Democratic congressman from California and eldest son of former President Franklin D. Roosevelt, will be the guest speaker at Columbiana County's sixth annual Jefferson - Jackson Day dinner Saturday evening, April 26, at East Palestine.

Last year's event was held in Salem with Speaker of the House Sam Rayburn as the official guest. Plans for the April 26 dinner were announced today following a meeting of the Democratic county central committee last night in Lisbon. Chairman Don R. Gosney of Columbiana presided.

Congressman Roosevelt will be accompanied by Wayne L. Hays, district representative.

Roosevelt, who served as secretary to his father from 1936 to 38, was elected to Congress from California's 26th district on Nov. 2, 1954. He was chairman of the California Democratic state central committee for four years.

In Congress he has been serving on the House Committee on Small Business.

County Archers Hold Officer Election

LISBON — James Cunningham of East Liverpool was elected president of the Columbiana County Archers at their annual meeting Monday in Lisbon village hall. He succeeds Paul Kuhns of Lisbon who was elected secretary.

Eric Gudat of Washingtonville was elected vice-president; and Valerie Emelo of Salem, treasurer. Richard Palmer of East Liverpool, Jessie Gray of Salem, Bill Martin of Lisbon and Alvin Gorby of New Waterford were elected directors.

The club has been organized for one year. Last week it broke ground for a target range which it will add to its Willow Grove Course at Lisbon in preparation for the early bird field shoot which is expected to draw over 300 archers from three states.

The club has invited the Thunderbird Archers of Youngstown and the Pine Hill Archers of Minerva to a 28-Target Flint round at locals' indoor range in the basement of the Hillier foodliner in Lisbon Sunday. Registration is set for 1:30 p.m.

Thinking It Over-- For Lent

By Robert L. Dieffenbacher, D.D.
(Written for NEA Service)

During this Lenten period many people will express their faith in Christ. They will renew their friendship with God. The multitudes turned to Jesus during these last few weeks of His ministry. Yet they deserted Him before the end.

Every Christian must set his course during these coming weeks so that he will be able to remain steadfast to the end. We have an advantage over His early followers. We know that He still lives. We know that the Cross was not to end His existence.

We can follow Him more easily than did the crowds who entered Jerusalem with Him. There are still questions to be answered. Do we have the determination to give up everything for Him? Do we love Him and our fellow men enough? Have we given ourselves completely into His care?

Cleveland Youth, 17, Columbiana, Canfield Enact Mutual Fire Aid Agreement

CLEVELAND (AP)—A 17-year-old high school junior was held by police today following the fatal shooting of a friend with a gun he thought was empty.

Police said Excell Matthews Jr., 15, a ninth grader, was shot Wednesday night. A bullet from a .38 caliber revolver entered his neck and lodged in his brain.

Homicide detectives said the boy had been shooting pool with two friends. The 17-year-old youth brought a revolver out of the pool room and into an alley, pointed it at one of Matthews' companions and jokingly pulled the trigger, police said.

Ignoring a warning that the gun might be loaded, the youth then pointed the gun at young Matthews and pulled the trigger again. A bullet, one of two in the chamber, struck the boy.

Officers said facts in the case would be presented to the police prosecutor today.

COLUMBIANA — Village Council at its meeting Tuesday night, acting on the recommendation of Fire Chief Don Hisey, moved to establish a mutual aid agreement with the village of Canfield for fire protection purposes.

The chief said the pact has been suggested by Canfield adding that: "After what happened at Ben Franklin (the 1956 business district blaze I believe we should have all the aid agreements we can get."

Council also authorized Hisey and a Fire department committee expenses for visiting Lynnhurst, Lakeside and Euclid—all Cleveland suburbs—to inspect new fire trucks acquired by those departments. Other members of the committee are Herb Sponseller, Charles, Flohr, Ernest Werner, and Marcus Hum.

WALDO WARD, faculty athletics manager at Columbiana High school said 300 adult tickets for the district basketball tournament at the Canton field house have been placed on sale at Wells Drug Store. With three games scheduled Friday evening, including Columbiana against Boston Township, he predicts a large crowd at the field house and suggested securing tickets here to save delay. Price is

\$1. Student tickets are sold at the high school.

Columbiana Women's Democratic Club will meet at 8 p.m. Tuesday at Young's Restaurant. Robert Blackburn will discuss income tax problems. A question and answer period is scheduled.

Mayor E. L. Calvin has issued his monthly report. It shows a total of \$714.80 in cash handled by his office during February, chiefly from traffic case hearings.

Fines and forfeitures brought brought \$472.55 into the village treasury. In addition, \$182.25 was paid to the state treasury, and \$60 went to the county treasury. The mayor heard 26 State Highway Patrol cases, six village cases, and six filed under the state code.

Ordinary mattress is made with about 200-300 springs. Wired together, they sag together under your weight. When you push down on one, you push down on all. They're not free to push up and correctly support the shape of your body. This "sagging support" is bad for your back, your comfort, your rest.

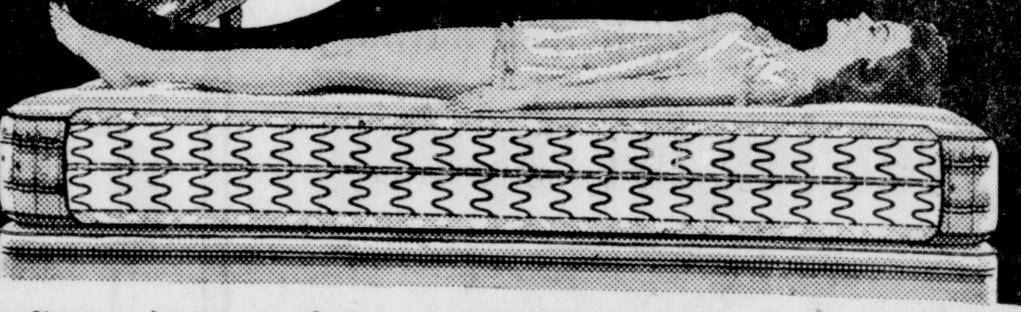

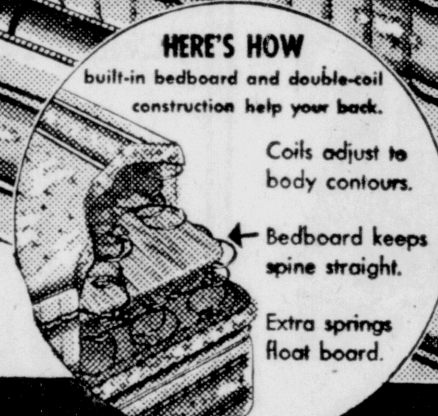

Beautyrest mattress is made with over 800 separate springs. Not wired together, they can't sag together. Each is free to push up under you. Together they firmly support the weight and shape of your whole body. In the new Beautyrest the springs have been power-packed to give 12% more firmness.

The world's finest mattress is now finer, firmer.

New power-packed springs, pocketed under compression, have added 12% more firmness. And it is buoyant firmness — best for your back, your comfort, your rest.

In torture tests made by the United States Testing Co., Beautyrest lasted 3 times longer than the next best mattress. This means Beautyrest costs least to own. Choose Normal Firm or Extra Firm model and be sure to order the box spring too.

Simmons places a scientifically engineered bedboard in the center of the mattress. Its corrective action is up close to your back where you need it. And you get double innerspring support — over and under the bedboard.

The first really new mattress design in 18 years. BACK CARE was requested by doctors, supervised by them during development, thoroughly tested and given their complete approval. Despite its more expensive construction, the Back Care mattress costs you only \$79.50, fully guaranteed. Matching box spring, same price. Come in and get this great combination!

Let's Scrutinize Current Recession

Bright Spots Exist
In Economy of NationBy NORMAN WALKER
(Fourth of Series)

WASHINGTON (AP) — "Business is no good," says the operator of a big hotel on the Las Vegas gambling strip. "Last year we were turning down 500 reservations every weekend. Now we're only turning down 400."

Which helps prove that even with the troublesome recession the country is experiencing there are bright spots. And the encouragement isn't only on the Las Vegas dice tables.

It's reflected in optimism in the long-depressed farm areas.

You also see it in the hopes of builders with spring weather coming and the freeze on building money credit thawing.

The same search by Associated Press newsmen that turned up the gloomy economic facts of life in the jobless areas of Michigan, Pennsylvania and California also brought glowing accounts of conditions elsewhere.

Florida's Business Booming
In Florida, where migrant field hands idled by the crop freezes are being fed in soup kitchens, business is booming on the state's west coast. There has been an influx of plant construction workers and "snowbirds," the winter vacationers from the North.

A survey of 444 firms by the Chamber of Commerce at Buffalo, N.Y., showed 84 per cent expect business to equal or exceed last year. About a fourth expect to expand employment this year.

There's an almost unanimous view the country isn't headed for a major depression.

In Chicago, Robert C. Tyson, finance chairman of U.S. Steel Corp., said two factors alone should prevent any repeat of 1929. Then, he said, we had a highly speculative stock market financed on thin margins with borrowed money. Now, he said, the bulk of stock market holdings are self-financed.

Tyson's second reason: "Home mortgaging practice has shifted from lump sum, short maturity loans, to monthly amortized, 20-to-30 year obligations, more like rent. Much of the debt is also guaranteed or insured by the government."

Give Tribute to Jobless Pay
Other businessmen now are paying tribute to the unemployment compensation part of the Social

Security system. An eight-billion-dollar insurance pool is being tapped by the nearly five million jobless to make sure they don't starve or go homeless. This keeps them in the market as buyers, to some extent at least.

Also, for those rightly worried about the present shortage of jobs, particularly in the nation's factories, there is the encouraging word from many economists that we are really headed for a labor shortage in a few years—that there will be plenty of work—and pay—for all.

It's odd, but two of the sectors that worried the economists most last year—farming and construction—now are improving and carrying much of the hopes for pulling the country up again.

The big story in farming is the broken drought in the Midwest.

Nebraska, coming out of a bumper crop year after a series of bad ones, counted a 43 per cent hike in crop dollar values which gave the state's farmers 20 million dollars more to spend.

Construction, a laggard in 1932, is looking up. Various government moves have eased money availability.

Home builders in many areas started clearing sites even before early February snows melted away.

Threaded through The AP's survey data are strong suggestions of the mobility and fluidity of the labor force. Workers can and do adjust to other jobs—go elsewhere looking for work.

The electrical manufacturing industry generally has been hurtling. People more or less ran out of money to buy home appliances, TV sets, etc. But the electronics end of the industry is beginning to pick up again and with renewed defense spending. And withdrawal of small appliances from fair trading by several firms may help sales.

Living costs still are soaring at record levels. But there's some encouragement here too. Raw material prices have sagged, for such things as rubber, metal, hides, wool, gasoline, fuel oil, and lumber. Government economists predict sooner or later this will drift into the retail level as lower consume prices.

Like Spareribs?
Try This Recipe

These are the days to indulge our liking for hearty, stick-to-the-ribs dishes that warm us up, fill us up, and give us the energy to cope with wind and cold. These are days for this Sweet and Pungent Spareribs!

This is a dish of substance, of bold flavor. Hefty pieces of meat, plenty of canned apple slices full of their native zest and tang, and sizeable chunks of green pepper, are all mingled together in a hot, richly brown and pungent sauce. Sweet and Pungent Spareribs

2 pounds spareribs, 3 tablespoons cornstarch, 1 cup beef bouillon, 2 1/2 cups (1 can) apple slices, 1 tablespoon soy sauce, 1/2 cup cider vinegar, 1-3 cup sugar, 1/2 teaspoon salt, few grains pepper, 2 green peppers, cut in 6th's, hot boiled rice, 1/4 cup butter, melted, 1/4 cup chopped parsley.

Have spareribs cut in serving size pieces. Bake spareribs in moderate oven, 350 degrees, 1 hour. Drain off fat.

Blend together cornstarch and bouillon; add apple slices, soy sauce, vinegar, sugar, salt and pepper. Cook until thickened, stirring constantly.

Add green pepper and spareribs. Cover; simmer 30 minutes. Combine rice, butter and parsley; season with salt and pepper. Serve with spareribs.

Ham Loaf, Apricots

Ingredients: 3 large eggs, 1/2 cup milk, 2 slices bread, 1 tablespoon finely grated onion (pulp and juice) or instant dehydrated onion, 2 teaspoons prepared horseradish mustard, 1/4 teaspoon ground cloves, 4 cups finely-ground cooked ham (fairly lightly packed), 1 can (about 8 ounces) unpeeled halved apricots (in heavy syrup).

Method: Beat eggs enough to combine yolks and white; add milk and blend. Crumb bread (including crusts) and add to milk with onion, mustard and cloves.

Stir well and allow to stand until bread disintegrates (or mash bread). Mix in ground ham thoroughly. Rinse a loaf pan (8 by 4 by 2 1/2 inches) with cold water; pack ham into pan in small quantities so there will be no air spaces.

Invert on heat-resistant glass baking dish (8 by 12 by 2 inches). Bake in moderate (350 degrees) oven 1 hour; spoon syrup from apricots over loaf halfway through cooking period; baste with syrup in pan a few times after that.

About 10 minutes before loaf is done, arrange drained apricot halves over top in attractive pattern. Makes 6 servings.

A knowing hand with spices will often add an interesting flavor to cookies. Here are some suggestions:

Sugar cookies take to a hint of ground nutmeg.

Add a dash of powdered all-spice, along with cinnamon and cloves, when you are making apple pie or spicy applesauce.

Mace gives pound cake and sponge cake old-time flavor.

If you have pumpkin-pie spice on your kitchen shelves, you'll find it's handy to use in any dessert that will benefit from a combination of cinnamon, cloves and ginger.

Cinnamon adds interest to plain chocolate cookies.

Mix cinnamon with confectioners' sugar and use for sifting over doughnuts straight out of the deep-fat kettle or bought and heated.

Add a little nutmeg to whipped cream to be served with cottage pudding and fruit sauce.

Nutmeg and cinnamon are both good to add to an apple quick loaf; a little powdered clove goes well in a prune quick loaf.

Some cooks like to add cinnamon and mace to chocolate cake mix.

Sweet small muffins, made to serve with tea, take to a pinch of nutmeg.

How to "Glamorize" Salmon Salad

Most families have a favorite salmon salad which they must have at least once a week. Now comes this new version — made with bottled Italian salad dressing, 1 package (12-oz.) frozen lima beans, cooked and drained. Drain salmon; remove bones and skin; break up in fairly large pieces. Combine with celery, onion, lima beans, zucchini, and sliced apples. Toss with salad dressing and greens. Makes 6 servings.

Pot Roasts Nestled in Noodles

BY GAYNOR MADOX
Tender, with brown glaze, individual pot roasts are company stuff and no nonsense. Served with broad noodles, broiled mushroom crowns, broccoli and then a cranberry nut pie—well, do you agree that's a company dinner? The individual pot roasts are perfect for the buffet supper, too.

Individual Pot Roasts (Makes 6 servings)
Two pounds beef chuck, 2 tablespoons honey, 1 tablespoon kitchen bouquet, 1/2 teaspoon marjoram, 1 1/2 teaspoons salt, 1/4 cup water, 1 medium sliced onion, 1 stalk celery, sliced; 3 tablespoons fat, 3 tablespoons flour.

Have butcher cut chuck into 6 small pot roasts. Combine honey and bouquet in bottom of Dutch oven. Place over moderate heat, add pot roasts and turn to coat all sides with honey mixture. Lightly brown meat on all sides. Add marjoram, 1 teaspoon salt, water, onion and celery.

Cover and simmer over low heat until meat is tender, about 2 hours. Replenish water if necessary. Remove meat to warm platter.

Put pan liquid, including vegetables, through sieve or food mill and blend to smoothness in an electric blender. Skim off fat. Measure 3 tablespoons fat into saucepan. Blend in flour and 1/2 teaspoon salt.

Cheese, Cabbage

Raw cabbage, crisp, packed with C vitamins and a budget buy, can be shredded for salad, then combined with American bleu cheese. It's really delicious.

Bleu Cheese Cabbage Salad

(Makes 6 servings)
Three - quarters cup crumbled American bleu cheese (about 4 ounces), 4 cups shredded cabbage, 1/4 cup salad oil, 1/4 cup vinegar, 2 tablespoons honey.

Combine cheese and cabbage; toss lightly and chill. Combine remaining ingredients; blend. Add to cheese mixture. Toss lightly, but thoroughly.

Peach Halves with Bleu Cheese Dressing

(Makes 6 servings)
One 1-pound 13-ounce can peach halves, drained, crisp lettuce leaves, watercress, 1/4 cup French dressing, 1/4 cup salad dressing, 1/4 cup commercial sour cream, 1/4 cup American bleu cheese (about 1 1/4 ounces).

Arrange peach halves on lettuce leaves. Garnish peaches with watercress. Chill. Combine French dressing salad dressing, cream and cheese; mix well. Serve with peach salad.

Another cabbage salad: shredded cabbage, drained, diced pineapple, a little finely sliced onion and crumbled bleu cheese. Serve with French dressing.

Potato Pancakes

Six large white potatoes, 1 small onion, 2-3 cup pancake mix, 2 teaspoons salt, 3 eggs, beaten.

Peel white potatoes and soak over night or for several hours in cold water. Grate enough potatoes to make 3 1/2 cups. Grate onion. Spoon off excess liquid. Add pancake mix, salt and eggs. Stir lightly until well blended.

For each pancake, place a large spoonful of batter in frying pan containing 1/4 to 1/2 inch hot fat. Cook to a golden brown on both sides, turning only once.

Bite-Size Cookies Are Simple, Tasty Dessert

Hearty winter meals often call for desserts that are light and simple to make. Two such offerings are Coffee Cashew Kisses and Tom Thumb Tarts.

Served with fragrant hot coffee, these bite-size treats are as welcome to guests as they will be to your own family. And the simplicity of the two recipes is an added point in their favor.

Coffee Cashew Kisses
2 egg whites, 1-1/3 cups sugar, 2 tablespoons instant coffee, 1/4 teaspoon salt, 2-3 cup chopped ca-

shew nuts, 1 teaspoon vanilla.
Beat egg whites stiff. Combine sugar, instant coffee and salt; add slowly to egg whites, beating well after each addition.

Fold in cashew nuts and vanilla. Drop by teaspoons on greased baking sheets. Bake in moderate oven, 325 degrees for 15 minutes or until golden brown. Makes 3 dozen.

Tom Thumb Tarts
1 cup butter or margarine, 2 pkg. (3 oz. each) cream cheese, 2 cups sifted all-purpose flour,

soften butter and cream cheese at room temperature. Combine and beat until smooth and creamy. Add flour, half a cup at a time, blending well after each addition.

Work with fingers to a smooth dough. Wrap in foil and chill several hours.

Shape into balls about one inch in diameter and place on baking sheets. With thumb, make a deep "well" in each. Bake in hot oven, 425 degrees, 12 to 15 minutes or until golden brown.

Cool. Fill wells with jam or marmalade. Makes about 3 dozen.

you have to turn it on to preheat it for baking.

Cover the dough in the muffin with a tea towel and place it near the range (out of a draft) so it will keep warm until the oven is the correct temperature.

Florence Nightingale, whose efforts to reorganize treatment of soldiers wounded in battle made her an international heroine, was a firm lady. In the Crimean War her vigilance reduced the death rate in military hospitals from 42 per cent in February, 1855, to only 2 per cent in June of the same year.

Ingredients: 3-4 cup plus 2 tablespoons warm (105 degrees) water, 1 tablespoon sugar, 1 package active dry yeast, 2 1/2 cups prepared biscuit mix, 1-3 cup dried currants (rinsed in hot water and drained), 2 tablespoons finely diced glacéed fruit (if desired), 1/2 cup sifted confectioners sugar, 1/4 teaspoon vanilla, 1 to 1 1/2 teaspoons cold water.

Method: Put the warm water in a medium-sized mixing bowl; add sugar and yeast; stir until every grain of yeast is dissolved. Add biscuit mix, currant and (if used) glacéed fruit.

Beat with a spoon until well mixed. Spoon into buttered muffin cups, filling them about two-thirds full. Let stand in a warm place, free from draft, about 1 hour. Bake in moderate (350 degrees) oven about 25 minutes.

Remove to wire rack to cool. Mix until smooth the confectioners sugar, vanilla and enough cold

Man Builds Shelter To Ease Worries Of Wars, Storms

BATTLE CREEK, Mich. (AP) — Worry about wars and windstorms has prompted Earl Reichert to build a 20-by-40-foot steel and concrete shelter in his backyard to give himself and his family of 17 "some peace of mind."

"You buy life insurance but no one benefits from it until you are dead. This kind of insurance keeps you alive," he said.

"War will come sooner or later, and we want to be protected against bomb-blast and radiation."

Providing all the comforts of home, the shelter also will be a refuge against tornadoes.

Reichert, who owns a steel fabricating and construction business, estimates the shelter will cost up to \$10,000.

The roof will be a 21-inch-thick concrete slab, reinforced with steel embedded 16-inch steel beams and three-quarter-inch steel resting on I-beams and steel columns. Covering it will be four feet of earth. Wall and floor will also be made of reinforced concrete.

A special well will provide water for sanitary facilities. A manually operated generator, radio, lights, cots, first-aid equipment and a Geiger counter will be kept in the shelter.

In The Service
Harold R. Madison, seaman, USN, son of Mr. and Mrs. Paul S. Madison of Route Two, Salineville, is serving aboard the dock landing ship USS Spiegel Grove operating with the U.S. Sixth Fleet in the Mediterranean area.

The temperature in Djibouti, in French Somaliland, on the north coast of Africa varies between 77 and 113 degrees.

New Alexander

Mrs. Homer Lutz entertained the Loyal Sisters of the Christian Church. Mrs. William Carle was in charge of the Bible Study period. Program was prepared by Mrs. Carle and Doris Wickersham. Mrs. Lutz and Mrs. Frank Clark served lunch. Mrs. Clyde Little will entertain the group in March.

A father and son banquet of the Christian Church was held in the church Friday.

Mrs. William Carle had charge of the program. Response by Chalmers Smith. Vocal music by the Wadsworth children of East Rochester, instrumental selections by Leo Davis Jr.; saxophone and Jerry Powell, trumpet solo. The speaker was Mrs. Glen Dunlap of Alliance.

Mr. and Mrs. L. G. Emmons of Alliance spent Sunday with Laura Emmons.

Mr. and Mrs. Corwin Grimes of Minerva were Saturday dinner guests of Mr. and Mrs. Paul Wood.

honoring the birthday of Mrs. Grimes.

Mrs. Eva Ruff spent a day recently with her daughter, Mrs. Willis Wood at New Garden.

Reuben Brandt, who has been a patient at Aultman Hospital, Canton, is convalescing at the home of Mr. and Mrs. Fred Hahlen.

Paul Pilmer is improved following a recent illness.

Mr. and Mrs. Homer Lutz were Sunday dinner guests of Mr. and Mrs. Dwain Lutz of Five Corners.

Mr. and Mrs. Willis Wood of New Garden held a farewell party Sunday evening for their son Donald who has volunteered for army service. Those attending from here were Mrs. Eva Ruff, Mrs. Ida Taylor, Mrs. William Carle, Jack Carle, Mr. and Mrs. Lorin Ruff, Mrs. William Engle, Randy and Ricky and Mr. and Mrs. Homer Lutz.

Mr. and Mrs. Robert Iden attended a birthday dinner Sunday for the latter's father, Mr. Folk at Mapleton.

Sweet-Sour Sauce Adds to Chop Suey

Pork chop suey, which probably originated in America, continues as a popular feature in Chinese restaurants in this country. By use of canned Chinese vegetables, it may easily be prepared at home.

The speedy sweet-sour sauce is a blending of unsulphured molasses, soy sauce and vinegar. The molasses, being a delicately flavored sweetener, blends easily with the other liquids and also gives the sauce its characteristic rich brown color.

The meat and vegetable medley is thickened just before serving with a little cornstarch and water. Serve the chop suey with cooked rice and canned Chinese noodles.

Pork Chop Suey
2 pounds boned pork shoulder, cut in strips, 1 can (20 ounces) mixed Chinese vegetables, 2 bouillon cubes, 1/4 teaspoon salt, 2 medium onions, sliced, 2 medium green peppers, cut in strips, 1/4 cup unsulphured molasses, 1 tablespoon soy sauce, 1/4 cup vinegar, 1 tablespoon cornstarch, 1/2 cup cold water, 6 cups hot cooked rice.

Brown meat in large skillet. Drain Chinese vegetables. Add enough water to liquid to make 2 1/2 cups. Add to skillet with bouillon cubes and salt; bring to boil.

Cover; reduce heat and simmer 1 hour. Add onion slices, green pepper strips and Chinese vegetables.

Mix together unsulphured molasses, soy sauce and vinegar. Add to skillet and cook, stirring occasionally, 10 minutes longer. Blend cornstarch and water; stir into hot mixture.

Cook, stirring, until thickened. Serve with hot cooked rice and canned Chinese noodles.

Greenford

Greenford Boy Scouts, Troop 116, spent an overnight camping trip Friday evening at Camp Stanbaugh. Eighteen Boy Scouts and three adult leaders participated.

Last Monday, 50 Boy Scouts and parents attended a covered dish supper in honor of the Boy Scouts who received badges and pins of service. Those receiving Tenderfoot badges were John Olloman, Norman Bixler, Wayne Pagani, Larry Kniseley, Eddie Burke, Alexander Yates, Richard Sox and Ronnie Janovic.

Boy Scouts receiving one year pins were Robert Yates and Nor-

man Bixler.

Five boys were eligible for two year pins. Terry Coy, Larry Cook, Wayne Pagani, James Thomas and Ronnie Williamson.

Five boys receiving three year pins were Michael Kniseley, Donald Everson, John Coy, Frank Coy and Tom Bailey.

Mr. and Mrs. Ralph Crawford and Mr. and Mrs. Chester Pettit returned home recently from southern trips.

William gave a sermonette at the Christian Church Sunday. On Mar. 2, the newly appointed pastor, Rev. Drury J. Benton, took over his duties at the Greenford Christian Church.

Mr. and Mrs. Donald Kuhns attended the homecoming at Cortland recently where a niece, Miss Kuhns was Homecoming Queen. She is the daughter of Mr. and Mrs. Arthur Kuhns.

The PTA is sponsoring Jungle Larry's circus, which will appear here Mar. 14. Proceeds will be applied for band uniforms.

Mrs. Edith Weikart will again head the annual Red Cross Fund drive for Green Township. Quota set for this area is \$300.

Mrs. Ernest Eyrich and Mrs. Donald Beardsley attended the Home Extension Council meeting at Canfield recently.

WHIPPED CREAM PARTY CAKE
made with Fresh Butter, Cream, Eggs!

Morton

DEVIL'S FOOD Whipped Cream Cake

Hang up your apron, Mother!

Morton's done all the mixing, baking and frosting for you.

Almost a full third of this cake is heavy whipped cream between light devil's food layers made with fresh butter and whole eggs—topped with a chocolate-y butter-cream frosting.

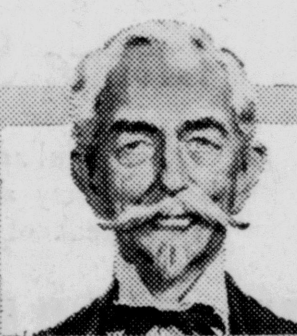

And Morton's magic gives you the same moist, delicate texture, the same wonderful richness with every cake you buy.

Why? Morton Cakes are "fresh-frozen" (quick-frozen while they're still oven-hot) to capture that homemade goodness and flavor!

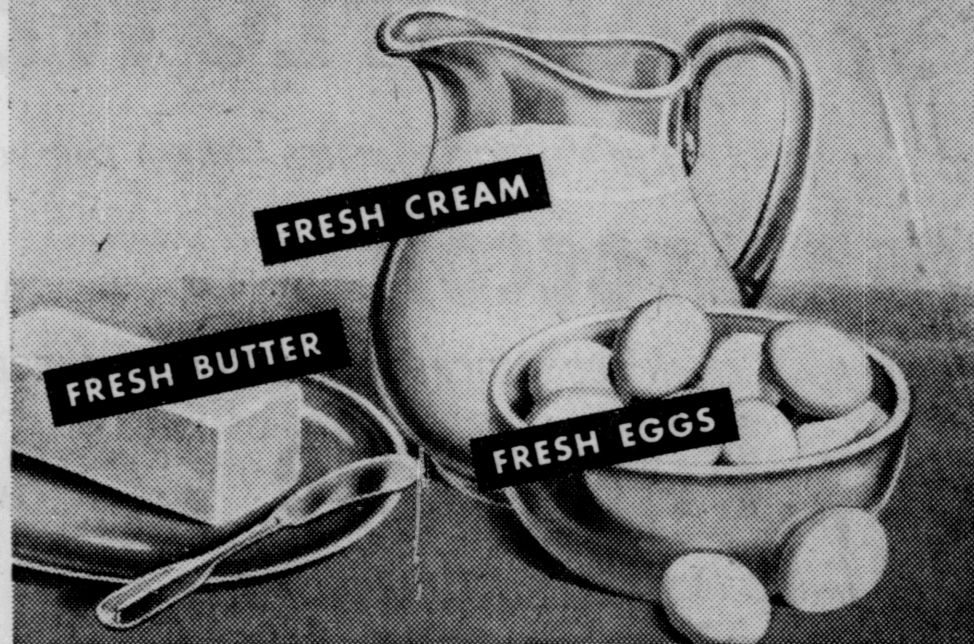

Just Thaw and Serve!

Also try Morton Snow White Whipped Cream Cake—delicious!

New discovery gives sweeter, fresher taste to margarine

Secret recipe provides far superior flavor—no price increase

It's true. An exclusive recipe discovery gives the new Mrs. Filbert's Margarine a flavor never before possible... the real true taste you look for in the most expensive spreads. You'll realize you can't buy a finer spread, no matter what you pay. The Filbert family guarantees you'll be pleased, or double your money back.

Red Cross Comes to Aid Of Family Stranded At Bus Depot

(This is the second of a series of stories telling of the humanitarian work carried on by the Salem Red Cross Chapter.)

The police found them sitting in the bus station — the thin, tired looking mother and her three small children.

The youngest was scarcely more than a baby, but they were raising no disturbance the way healthy, well-fed children often do.

They were hungry and tired. It had been a long trip to Salem where they hoped to find their father, but the search had been fruitless.

file and their money was now gone. The bus station was at least warm, and the benches provided a free resting place for the exhausted children.

The family was without money or friends in Salem, so the police notified the Red Cross.

First, shelter and food were provided. Then the local Red Cross went to work to find some permanent solution for the young family.

Through area contacts, the Red Cross located the father who was unemployed but anxious to find work and rebuild his home. A job was found for him and, through the assistance of the Red Cross, he was able to keep his family together until his own pay checks came in.

This family is just one of many that owes its survival to the assistance and counseling which the Red Cross, locally and nationally, is able to give those in need. Whether it is personal need or national disaster, the Red Cross always stands ready to help. Those who contribute to the Red Cross fund drive are helping too, for their financial support makes possible the assistance which the Red Cross provides for so many.

The chapter plans to erect school and FFA identification signs at each edge of the school property along the highway.

April 19 was announced as the date for the annual parents-son banquet to be held at 7 p.m. in the elementary auditorium. Parents of the members, high school faculty and school board members will be guests.

Questions and Answers
LITTLE LIZ

Q — What period of time is not governed by natural processes?
A — The week is entirely a man-made division of time.

Q — Does the President of the United States own the fleet of automobiles used at the White House?
A — No, the White House fleet of automobiles is supplied by the manufacturers for a "Nominal" rental for use on official duties.

So many people would rather be right than be pleasant.

Researchers Seek Hay Fever Cure With 'Immune' Milk

CHICAGO (U)—Forty volunteers, most of them hay fever victims, have started drinking milk from inoculated cows in an effort to build up resistance to the pollen malady.

Most of the volunteers, who began the experiment Tuesday, are employees of Chicago's Board of Health, Dr. Herman N. Bundesen, board president, is leading the volunteers, although he is not a hay fever sufferer.

The milk is being supplied by a dairy from a special herd of cattle inoculated with ragweed pollen. This stimulates production of protective antibodies in the milk.

Each of the volunteers will drink a quart of the special milk every day for two to three weeks and undergo tests for reactions.

The project is the result of experiments by two University of Minnesota researchers, Dr. Berry Campbell and Dr. William Petersen.

They reported obtaining statistically significant protection by feeding the equivalent of a pint of "immune" milk a day in powdered form to individuals.

The way a walking shoe
should look...12.95

Perfect from its handsome low heel to its sweep of buckled vamp... the shoe that can take a stride in stride and still be graceful about it. Trim and tailored. Deceivingly-expensive looking. So soft-stepping and foot-hugging, you'll know in a moment... it's a Red Cross Shoe.
